

**Ms. Begnaud 2020 -2021**  
**PRINCIPLES OF HEALTH SCIENCE**

**CLASSROOM RULES**

1. Be respectful of others and their property at all times.
2. Be responsible (ie. Arrive on time, have materials for class)
3. Listen carefully and follow directions.
4. Be prepared.
5. DO YOUR BEST!
6. Ask questions when you are unsure of instructions.

**Course Description**

The Principles of Health Science provides an overview of the therapeutic, diagnostic, health informatics, support services, and biotechnology research and development systems of the health care industry. It is also designed to develop and enhance an understanding of the roles and responsibilities of each career major area. Communication, study, and leadership skills will be emphasized as the student learns about the health care industry, health care economics, and career opportunities available. Medical Terminology will be integrated throughout the course. Upon successful completion of this course, the student will be able to focus on a career major path and make informed decisions regarding choices for continuing education and/or employment.
