TEKS K.2D record and organize data and observations using pictures, numbers, and words **K.9B** examine evidence that living organisms have basic needs such as ... air, water, nutrients, sunlight, and space for plants

Unit 10 • Lesson 26
What Do Plants Need?

Name _____

water

no water

Draw.

Plants need air, light, and water to live.

Name _____

Draw.

space to grow

soil

Plants need things from soil.
Plants need space to grow.

► Discuss why plants need nutrients from soil. Most plants get the light they need from the sun. Draw the sun.
