Addition Strategies: Making Ten

How can I decompose a number to make a benchmark of ten?

Look for combinations of ten.

Add the value of the tens and the value of the ones.

$$\begin{array}{r} 27 + 23 + 42 \\ \swarrow \quad \searrow \\ 40 + 10 + 40 + 2 \\ 90 + 2 \\ 92 \end{array}$$

$$\begin{array}{r} 27 + 25 + 64 \\ 27 + 23 + 2 + 64 \end{array}$$

Decompose ones to make tens.

$$\begin{array}{r} 20 + 20 + 10 + 60 + 6 \\ 110 + 6 \\ 116 \end{array}$$

Add the value of the tens and the value of the ones.

$$45 + 15 + 27$$

$$61 + 89$$

$$17 + 75 + 28$$

$$58 + 53 + 31$$
